

Air-Operated Double Diaphragm Pumps (AODD)

Pneumatic Stroke Counter Kit

AODD Pumps with a Mounted Pneumatic Stroke Counter

Air Powered Double Diaphragm Pumps shipped with a pneumatically actuated mechanical stroke counter, directly mounted to the pump with a fixed bracket, air hose & fittings. Used to accurately measure the stroke life of a pump & diaphragms, to help calculate & determine maintenance intervals, or in dosing applications to measure and calculate transferred liquid volume over time. Completely pneumatic operation (Non electrical). Safe to use in explosive environments, when pumping flammable liquids or when used in conjunction with an ATEX certified pump.

Pneumatic Stroke Counter Kit

- Fully Pneumatic (Non Electrical) Operation.
- Convenient Use, Transport & Installation.
- 8 Figure Numeric Indicator with No Reset Function.
- Measure Stroke Life Expectancy.
- Determine Maintenance Intervals.
- Calculate Liquid Volume Over Time.
- Available for Most Model Pumps ½" and Above.
- Factory Mounted Components:
 - High Quality Mechanical Stroke Counter.
 - Fixed Metal Bracket.
 - Airline Hose & Air Fittings.
 - Pneumatic Regulator Valve.

½" S.S. Pump.
Pneumatic Stroke Counter Kit.
Max Flow Rate: 16 GPM

Air-Operated Double Diaphragm (AODD) Pump Capabilities

Self Priming
Can Run Dry
Can Run Deadhead
Variable Flow Rates

Variable Discharge Pressures
Transfer Liquid Slurries
Can Handle Hard Abrasive Solids
Can Handle a Wide Variety of Liquids

Explosion Proof / Intrinsically Safe
Portable & Easy to Use
Can Pump Shear Sensitive Fluids
Transfer Viscous Fluids
